What is this product?

Type	UCITS fund
Objectives	The Fund invests primarily in attractively valued, privately owned and well-managed fast growing public small and mid-cap companies in Emerging Europe ex-Russia region with an objective to deliver positive alpha over the period of five years. As stock exchanges in these markets are dominated by banking sector companies and state-owned enterprises, the Fund aims to limit investing into these segments, and focus on stock-picking mainly among privately owned, well-managed and fast growing smaller companies. Benchmark agnostic, the Fund aims to find the optimal balance between highest upside to internally set target prices and the risk level perceived by the Management Company, considering among others company quality, ESG factors, liquidity and FX outlook. The Fund performs sectorial ESG (Environmental, Social and Governance) exclusions but does not promote environmental and social characteristics and does not have a sustainable investment as its main objective. By implementing Avaron's investment process the Fund aims to outperform the market. Fund shares are issued on every banking day and redeemed every banking day or with 10 banking days, one month or two months prior notice depending on the redemption amount. Minimum investment into Fund's C share is 250,000 EUR. The Fund does not charge any subscription fee or redemption fee. Proceeds from the Fund's investments shall be reinvested, no distributions shall be made to the investors. The shareholder's return on their investment into the Fund is reflected in the increase or decrease of the net asset value of the share. More information about Fund's investment policy and restrictions is available in Fund's prospectus.
Intended retail investor	Fund is intended for an investor • who seeks to invest into a stock-picking portfolio in Emerging Europe as a diversifier in his/her global equity portfolio and understands the higher risks involved in investing in Emerging Europe equities; • with high risk tolerance and who plans to hold the investment for at least 5 years; • who understands that the money invested in the Fund may both increase and decrease in value and that it is not certain that the entire capital invested can be returned; • who has prior experience with investing into investment products or knowledge of the functioning of the financial markets.
Maturity	The Fund is open-ended and has no maturity. The Fund may be terminated with the resolution of the Fund's Supervisory Board, or pursuant to the imperative provisions of the Applicable Law subject to the prior approval of the Financial Supervision Authority. More information about liquidation of the Fund is available in Fund's articles of association.
Other information	Fund's depositary is Swedbank AS (registry code 10060701). Fund articles of association and prospectus, annual and/or semi-annual reports are available at the Management Company's website: https://avaron.com/documents/ or obtainable free of charge on request from the Management Company. Fund NAV is calculated daily and published at: https://avaron.com/our-products/smc/

What are the risks and what could I get in return?

Summary risk indicator

The risk indicator assumes that you keep the product for 5 years.

The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator provides an indication of the level of risk of this product compared to other products. It shows how likely it is that the

product will lose money because of movements in the markets.

We have classified this product as 4 out of 7 which is a medium risk class. This means that the fund has a medium-high risk of increases and decreases in the share value. The indicator primarily reflects the increase and decrease in the value of the securities in which the fund has invested. The category may change over time.

Risks that are not captured by the summary risk indicator are emerging market risk, liquidity risk, risk of investing in small and mid-cap companies.

What happens if AS Avaron Asset Management is unable to pay out?

By law, the fund's assets must be held separate from the assets of the Fund Management Company. The Fund has a depositary who is responsible for safekeeping the assets of the Fund. In the event of the bankruptcy of the Fund Management Company, the management of the Fund is taken over by the depositary Swedbank AS. There is no compensation or guarantee scheme in place for investors in the Fund.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

Costs over time

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- EUR 10,000 is invested

	If you exit after 1 year	If you exit after 5 years (recommended holding period)
Total costs	147 EUR	757 EUR
Annual cost impact*	1.5%	1.5% each year

* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.7% before costs and 0.2% after costs.

Composition of costs (amounts in euro are based on an investment of 10,000 euro)

One-off costs upon entry or exit		
Entry costs	No entry fee	0 EUR
Exit costs	No exit fee	0 EUR
Ongoing costs		
Management fees and other administrative or operating costs	1.2% of the value of your investment per year. This is an estimate based on actual costs over the last year.	118 EUR
Transaction costs	0.3% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	29 EUR
Incidental costs taken under specific conditions		
Performance fee	No performance fee	0 EUR

How long should I hold it and can I take my money out early?

Recommended holding period: 5 years
