## What are the risks and what could I get in return?

### Summary risk indicator

**The risk indicator assumes that you keep the product for 5 years.**

The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator provides an indication of the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 4 out of 7 which is a medium risk class. This means that the fund has a medium risk of

increases and decreases in the unit value. The indicator primarily reflects the increase and decrease in the value of the securities in which the fund has invested. The category may change over time.

Risks that are not captured by the summary risk indicator:

**Emerging market risk** – the Fund's assets are invested in Emerging Europe region which can be subject to legal, social, political and economic instability, possibility of large currency fluctuations, lower liquidity in local markets and higher volatility compared to developed markets.

**Liquidity risk** – risk that Fund's assets may be difficult to sell at a certain time for a certain price.

### Performance scenarios

The figures shown include all the costs of the Fund itself. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

<b>Recommended holding period:</b>	<b>5 years</b>		
<b>Investment example:</b>	<b>10,000 EUR</b>		
<b>Scenarios</b>		<b>1 year</b>	<b>5 years</b>
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	<b>130 EUR</b>	<b>3,530 EUR</b>
	Average return each year	-98.7%	-18.8%
<b>Unfavourable</b>	<b>What you might get back after costs</b>	<b>7,630 EUR</b>	<b>8,400 EUR</b>
	Average return each year	-23.7%	-3.4%
<b>Moderate</b>	<b>What you might get back after costs</b>	<b>10,370 EUR</b>	<b>11,770 EUR</b>
	Average return each year	3.7%	3.3%
<b>Favourable</b>	<b>What you might get back after costs</b>	<b>16,390 EUR</b>	<b>17,870 EUR</b>
	Average return each year	63.9%	12.3%

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances. This type of scenarios occurred for an investment between the following time periods:

**Unfavourable:** March 2015 – March 2020

**Moderate:** February 2016 - February 2021

**Favourable:** December 2018 - December 2023

## What happens if AS Avaron Asset Management is unable to pay out?

By law, the fund's assets must be held separate from the assets of the Fund Management Company. The Fund has a depositary who is responsible for safekeeping the assets of the Fund. In the event of the bankruptcy of the Fund Management Company, the management of the Fund is taken over by the depositary Swedbank AS. There is no compensation or guarantee scheme in place for investors in the Fund.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

## Costs over time

### We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested

	If you exit after 1 year	If you exit after 5 years (recommended holding period)
<b>Total costs</b>	219 EUR	1,301 EUR
<b>Annual cost impact*</b>	2.2%	2.2% each year

\* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.5% before costs and 3.3% after costs.

## Composition of costs (amounts in euro are based on an investment of 10,000 euro)

<b>One-off costs upon entry or exit</b>		
Entry costs	No entry fee	0 EUR
Exit costs	No exit fee	0 EUR
<b>Ongoing costs</b>		
Management fees and other administrative or operating costs	2.1% of the value of your investment per year. This is an estimate based on actual costs over the last year.	211 EUR
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	8 EUR
<b>Incidental costs taken under specific conditions</b>		
Performance fee	No performance fee	0 EUR

## How long should I hold it and can I take my money out early?

### Recommended holding period: 5 years

The fund has no minimum required holding period. However, since the Fund invests in equities, it is suitable for a long investment horizon. You should be prepared to hold the Fund for at least 5 years. You have the option to sell your Fund units any time.

## What are the risks and what could I get in return?

### Summary risk indicator

**The risk indicator assumes that you keep the product for 5 years.**

The actual risk can vary significantly if you cash in at an early stage and you may get back less. The summary risk indicator provides an indication of the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 4 out of 7 which is a medium risk class. This means that the fund has a medium risk of

increases and decreases in the unit value. The indicator primarily reflects the increase and decrease in the value of the securities in which the fund has invested. The category may change over time.

Risks that are not captured by the summary risk indicator:

**Emerging market risk** – the Fund's assets are invested in Emerging Europe region which can be subject to legal, social, political and economic instability, possibility of large currency fluctuations, lower liquidity in local markets and higher volatility compared to developed markets.

**Liquidity risk** – risk that Fund's assets may be difficult to sell at a certain time for a certain price.

### Performance scenarios

The figures shown include all the costs of the Fund itself. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Fund depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

<b>Recommended holding period:</b>	<b>5 years</b>		
<b>Investment example:</b>	<b>10,000 EUR</b>		
<b>Scenarios</b>		<b>1 year</b>	<b>5 years</b>

**Favourable:** December 2018 - December 2023

## What happens if AS Avaron Asset Management is unable to pay out?

By law, the fund's assets must be held separate from the assets of the Fund Management Company. The Fund has a depositary who is responsible for safekeeping the assets of the Fund. In the event of the bankruptcy of the Fund Management Company, the management of the Fund is taken over by the depositary Swedbank AS. There is no compensation or guarantee scheme in place for investors in the Fund.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Fund and how well the Fund performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

## Costs over time

### We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested

	If you exit after 1 year	If you exit after 5 years (recommended holding period)
<b>Total costs</b>	244 EUR	1,442 EUR
<b>Annual cost impact*</b>	2.4%	2.4% each year

\* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.5% before costs and 3.0% after costs.

## Composition of costs (amounts in euro are based on an investment of 10,000 euro)

<b>One-off costs upon entry or exit</b>		
Entry costs	No entry fee	0 EUR
Exit costs	No exit fee	0 EUR
<b>Ongoing costs</b>		
Management fees and other administrative or operating costs	2.4% of the value of your investment per year. This is an estimate based on actual costs over the last year.	236 EUR
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	8 EUR
<b>Incidental costs taken under specific conditions</b>		
Performance fee	No performance fee	0 EUR

## How long should I hold it and can I take my money out early?

### Recommended holding period: 5 years

The fund has no minimum required holding period. However, since the Fund invests in equities, it is suitable for a long investment horizon. You should be prepared to hold the Fund for at least 5 years. You have the option to sell your Fund units any time.
